LinkedIn: https://www.linkedin.com/in/psmsdesigners/

Summary

• Frontend Developer with 4+ years of experience building scalable Single Page Applications (SPAs) using Angular 16+, TypeScript, RxJS, Angular CLI, and Angular Material.

• Skilled in responsive UI development with HTML5, CSS3, SCSS, Bootstrap, Tailwind, ensuring cross-browser compatibility and accessibility (WCAG/ARIA).

• Strong expertise in REST API integration, JWT authentication, routing, lazy loading, guards, interceptors, and performance tuning.

• Hands-on with CI/CD pipelines (Azure DevOps), Git version control, Agile methodologies, and unit testing frameworks (Jasmine, Karma).

• Exposure to Node.js, Express.js, SQL, Azure Data Factory, Databricks, and Generative AI (LLMs, LangChain, HuggingFace APIs).

• Recognized for problem-solving, clean code practices, debugging, and ownership of end-to-end delivery.

Technical Skills

• **Frontend**: Angular 12–16, TypeScript, RxJS, Angular CLI, Angular Material, HTML5, CSS3, SCSS/Sass, Bootstrap, Tailwind, Responsive UI

• **SPA Architecture**: Routing, Lazy Loading, Guards, Interceptors, Reactive Forms, JWT Auth

• **Tools**: Git, CI/CD (Azure DevOps), Agile

• **Backend**: Node.js, Express.js, REST APIs, SQL

• **Cloud/Data**: Azure Data Factory, Azure Databricks

• **AI/GenAI**: LLMs, LangChain, HuggingFace API integration

• **Testing**: Jasmine, Karma

Professional Experience

Technology Lead | Infosys | 2022 – Present

• Developed and deployed Angular 16+ SPA applications with TypeScript, RxJS, and Angular CLI, improving scalability and maintainability.

• Implemented routing, lazy loading, guards, interceptors, and JWT authentication, enhancing security and modularity.

• Built reusable Angular Material components with SCSS and responsive design, reducing UI development time by 25%.

• Integrated REST APIs using Observables and async patterns, improving API response handling efficiency.

• Optimized performance with code splitting and lazy-loaded modules, reducing initial load time by 30%.

• Conducted unit testing (Jasmine, Karma) to ensure code quality and reliability.

• Collaborated in Agile ceremonies, managed source control with Git, and automated deployments via Azure DevOps CI/CD pipelines.

Web Developer | Freelancer | 2019 – 2022

• Designed and developed responsive UI pages using HTML5, CSS3, JavaScript, Bootstrap, ensuring cross-browser compatibility.

• Integrated APIs and optimized UI performance, reducing page load times by 20%.

• Applied WCAG/ARIA accessibility standards, improving usability for diverse audiences.

• Delivered client projects with clean, maintainable code and strong focus on performance.

Projects

• Angular SPA Dashboard – Developed a scalable SPA with Angular 16, TypeScript, RxJS, routing, lazy loading, guards, interceptors, and JWT authentication.

• Node.js REST API – Built CRUD operations using Node.js, Express.js, and SQL. Designed RESTful endpoints and optimized queries.

• Generative AI Application – Created UI consuming HuggingFace LLM APIs with LangChain integration for real-time text generation.

• Azure Data Pipeline – Designed ETL workflows using Azure Data Factory and Databricks notebooks for automated data processing.

Education

B.Tech – GIET College of Engineering | 2019

Strengths

Problem-solving • Clean code • Debugging • Fast learning • Teamwork • Ownership
